

Microneedling Preparation Sheet

The following information will allow for you to help us to give you the best possible treatment by creating the best environment for you. Please read them thoroughly.

Skin Condition: Please arrive for treatment with a freshly washed face. Do not apply any skin products such as lotion, sunscreen, make-up, etc. You are welcome to apply certain skin moisturizer AFTER your treatment, if you'd like, just not before.

Hair: If your hair is long enough to cover any part of your face or neck that you want treated (such as hair bangs), please bring a hair clip or other method to restrain your hair up and out of the way during your treatment.

Medication: If you are currently on medication that can cause excessive bleeding or easy bruising, such as Warfarin, Coumadin or other "blood thinners", please advise the office in case we need to reschedule your appointment. Because of the nature of the treatment using needles in various locations, we don't want you to suffer any adverse reactions. Do not receive any Botox treatments before treatment. We won't Microneedle over Botox or facial filler procedures.

Medical Condition: PLEASE disclose any medical conditions, skin related or otherwise, to the doctor during your consultation and/or first visit. We want to make sure we do not, inadvertently, make any conditions worse or jeopardize your wellbeing in any way. If you are sick, especially of a contagious type, PLEASE call and reschedule for a time you feel better. You won't be penalized for it. We want EVERYONE healthy and happy.

Clothing: Please wear loose fitting clothing that might cover areas to be treated.

Music: Feel free to bring with you any music devices that you can listen to (through ear plugs) to make your treatment time more pleasurable. As long as it doesn't interfere with accessibility to areas that will be treated.

I understand and agree to the subjects listed on this page.
